

Jawad Hossain Tanjim

Full Stack Developer

[+8801758516069](tel:+8801758516069) | jh.tanjim.4@gmail.com | [GITHUB](#) | [Linkedin](#) | [PORTFOLIO](#)

CAREER OBJECTIVE

Full Stack Developer with 2+ years of professional experience specializing in the MERN stack (MongoDB, Express.js, React, Node.js). Skilled in building secure, scalable web applications, RESTful API integration, JWT authentication, and delivering responsive UI with React and Tailwind CSS.

EXPERIENCE

[BioAro](#) – Remote

Frontend Developer

Nov 2025 – Jun 2026

- Developed and maintained responsive UI components across 4 React applications, improving consistency and adding file upload, i18n support, and dark mode.
- Managed microbiome and genomic datasets through a Dataset Provider platform, implementing CRUD operations, bulk uploads, and draft workflows that streamlined management of 1,000+ records.
- Engineered a role-based Admin Console supporting 4 user roles with user administration, system logs, and AI access controls.
- Improved application security across 4 React applications by migrating authentication from localStorage to HTTP-only cookie refresh flows, eliminating client-side token exposure and reducing XSS attack risk.
- Engineered a full-stack CRM and redesigned the Goldensands homepage from Figma, delivering 5+ major UI sections and a fully responsive experience across desktop, tablet, and mobile devices.

[CodersPoint](#) – Remote

Full Stack Developer (MERN)

Oct 2024 – Oct 2025

- Delivered and deployed 5+ MERN-stack web applications, integrating RESTful APIs and scalable backend services for production use.
- Implemented JWT-based authentication and authorization across 5+ MERN applications, securing protected routes and enabling role-based access control for authenticated users.
- Converted 20+ Figma screens into pixel-perfect responsive React components, ensuring cross-browser compatibility and mobile responsiveness.

[Dev Cluster](#) – Remote

Frontend Developer (Intern)

Jul 2024 – Sep 2024

- Built and optimized responsive web interfaces using HTML5, CSS3, JavaScript, and React.js, following web accessibility and cross-browser compatibility standards.
- Collaborated with senior developers to refactor reusable frontend components, eliminating 200+ lines of duplicated code and improving maintainability.

PROJECTS

GainCards - Pokemon Card Marketplace | gaincards.com

Role: Frontend | **Tech:** React, TypeScript, JavaScript, React Query, Tailwind CSS, Stripe, Axios, Shippo

- Launched a full-stack eCommerce marketplace with role-based dashboards (Seller, Buyer, Admin), enabling users to buy, sell, and donate Pokémon cards.
- Integrated Stripe payment gateway and Shippo API for end-to-end order fulfillment, including secure transactions and real-time shipping management.

Shantix Corporation - Japanese Vehicle Export Platform | shantix-corp.com

Role: Frontend | **Tech:** React, TypeScript, JavaScript, React Query, Axios

- Developed a vehicle export eCommerce platform with advanced search, price negotiation workflows, and payment slip uploads for international buyers.
- Designed a comprehensive Admin Dashboard with CRUD operations for inventory, user management, order tracking, inquiry handling, and shipping schedule management.

Khanar Dokan - E-commerce Platform | [_khanar-dokan.vercel.app](https://khanar-dokan.vercel.app) | [CLIENT REPO](#) | [SERVER REPO](#)

Role: Full-Stack | **Tech:** React, Node.js, MongoDB, Firebase, Stripe, Tailwind CSS, Axios

- Architected a role-based food ordering system (User, Admin, Super Admin) featuring menu browsing, Stripe payments, order tracking, and administrative controls.
- Implemented real-time order and revenue analytics dashboard using WebSocket updates, enabling admins to monitor live platform performance.

SKILLS

Frontend: React.js, Next.js, TypeScript, HTML5, CSS3, Tailwind CSS, Bootstrap, TanStack Query, React Hook Form

Backend: Node.js, Express.js, NestJS, MongoDB, Firebase, REST APIs, JWT Auth, Stripe, Prisma

Tools: Git, GitHub, VS Code, Vite, Netlify, Vercel, Firebase Hosting

EDUCATION

Bachelor of Science in Computer Science & Engineering

CGPA: 3.33

East Delta University | Chattogram, Bangladesh

2020 - 2024

Relevant Coursework: Data Structures, Algorithms, Database Systems, Software Engineering, Web Development
